## **Berzelius symposium 93**

### **International Conference on Thrombosis and Embolism**

This international conference will cover advances, breakthroughs and important aspects of thrombosis and embolism in the context of pathogenesis and treatment of diverse medical conditions. The scope of the conference will range from basic studies at cellular and molecular levels, through clinical manifestations and diagnostic considerations, to the treatment and follow-up of selected medical conditions. Diverse topics including clinical conditions in different patient groups and challenging clinical situations will be covered. The conference will be of interest for the beginners as well as for the experts, from scientists engaged in basic research to the bedside clinicians, in this important field of medicine.

*You are cordially invited to participate in the symposium!*

*Organizing committee:* Md. Shahidul Islam (chair) Sweden, Marika Bajc, Sweden, Alun H. Davies, UK, Søren Hess, Denmark, Paolo Prandoni, Italy, Raveena Ravikumar, UK.

The meeting is arranged by the Swedish Society of Medicine in cooperation with Karolinska Institutet
